ROME | October 11<sup>th</sup>, 2017

**How do you choose  
what to translate  
first from the ~  
100K strings of  
LibreOffice UI ?**

**And how do you  
choose what's  
next?**

**Do you try to reach  
100% or some  
things just doesn't  
worth your time &  
effort ?**

**How to keep the translation team motivated although they have a moving goal?**

**What's our  
translation goal?  
Do you encourage  
or punish language  
crossing a certain  
threshold?**

# Thank you
