
OSBA OFFICE INTEROP WORKING GROUP

IN-PERSON MEETING
LIBREOFFICE CONFERENCE TIRANA
OCTOBER 3, 2018

OSB Open Source
Business
ALLIANCE

AGENDA

- > Introduction
 - > Market feedback – where's the demand?
 - Home of the Working Group
 - Requirements for an „Open365“ solution
 - Programmability & integration with 3rd party software
 - Interoperability with MSO
 - > Wrap-up
-

HOW TO SOLVE THE COLLECTIVE ACTION PROBLEM?

▼ Phase 1: Initialization

- a) Mobilize attention and interest of several open source software users
- b) Create clear and common understanding of the issues, ask the experts
- c) Aggregate and specify the requirements, prioritize and cluster them

▼ Phase 2: Funding

- a) Organize coordination for Request for Proposals (RFP)
- b) Send out specification to potential implementers
- c) Do fundraising for the best proposal

▼ Phase 3: Implementation

- a) Organize project management, sign contracts, start implementing
 - b) Do testing among the open source software users, finalize development
 - c) Publish resulting source code, pass it upstream to the open source project
-
